

CARDIAC EMERGENCY PLAN

- On foot on an incident survey the scene / make scene safe.
- Call 11//999 & request an ambulance to attend. If the incident has occurred on the course ask to see if an Emergency Response Vehicle is available as this can access areas of the course.
- Call the Clubhouse & ask them to send for 1st responder & the AED.
- At the scene the 1st responder will check for vital signs.
- If no signs of breathing the AED Machine will be used.
- 1st Responder will continue to administer care until ambulance arrives.

IMPORTANT NOTES: There are labelled keys for all gates leading to the course attached to the AED. In the event of the ambulance not being able to access the course area where the patient is being cared for the Course Gator Machine can be retrieved from the Course Sheds. This is agreed to be accessible inside the main shed gate at the wash down area and keys are available on the defib bag. The flatbed of this machine can then be used to transport the patient to the ambulance. Please Notify Club Manager of any such incident on 087 1326485

AED is Located in Lobby @ Stairwell

Our Staff & Members Trained as Cardiac 1st Responders & 1st Aiders Are:

Frances Dervan - Course Staff - Valid to 04/2023
